

Forek Online

The Complete Occupational Training Management Platform

Enroll

Manage every applicant from first click to enrolled student.

Train

Deliver lessons, assessments and workplace experience.

Report

Track compliance, generate reports and drive outcomes.

Forek Online is a powerful, all-in-one digital platform built exclusively for occupational training providers. Whether you run a small skills academy or a multi-campus institute, Forek Online gives you everything you need to manage students, deliver training, track workplace learning and stay fully compliant — all from a single, easy-to-use system.

What Is Forek Online?

A single platform that runs your entire training operation.

Running a training institute means juggling applications, enrolments, lesson plans, workplace visits, assessments, reports and compliance deadlines — often across multiple courses, campuses and staff. Forek Online replaces spreadsheets, paper registers and disconnected systems with one secure, cloud-connected platform that your whole team can use from anywhere.

Who It Serves	What They Get
Training Administrators	Full control over applications, enrolments, courses and staff.
Lecturers & Assessors	Digital lesson plans, online assessments and instant results.
Workplace Mentors	Timesheet reviews, visit logs and learner progress at a glance.
Students / Learners	Online applications, access to learning materials and results.
Finance & Compliance	Financial clearance, report compliance and automated reminders.

No technical background required. If you can send an email, you can use Forek Online.

Core Features

Everything your institution needs, built in from day one.

A Applications & Enrolment

- Custom application cycles per intake
- Online portal for learner applications
- Automated status notifications
- Document upload & verification
- Bulk enrolment management

B Student Lifecycle

- Complete student profiles & history
- ID, address & contact details
- Cloud document storage
- Deregistration & re-enrolment
- Guardian / next-of-kin records

C Courses & Lessons

- 17+ occupational qualifications
- Digital lesson plans per module
- Attendance tracking per lesson
- Learning resources library
- Role-based content access

D Assessments & Results

- Online question bank builder
- Learner self-assessment portal
- Automatic marking & scoring
- Attempt history & analytics
- Assessor review workflow

E Workplace Learning (WBL)

- Placement & venue management
- Mentor-signed weekly timesheets
- Workplace visit logging
- WBL module tracking per learner
- Mentor review queue

F Compliance & Reporting

- Automated compliance tracking
- Grace-period & extension management
- Progress, submission & finance reports
- PDF export at any time
- Compliance reminders

How It Works

From first enquiry to qualified learner — in one system.

1

Learner Applies Online

Applicants complete their application through the online portal, upload required documents and receive automated status updates throughout the process.

2

Admin Reviews & Enrols

Administrators review applications, verify documents and confirm enrolment with a few clicks. Learner profiles are created automatically — no double-entry.

3

Training Begins

Lecturers deliver lessons tracked digitally on the platform. Learners access materials, complete online assessments and view their results instantly.

4

Workplace Learning (WBL)

Learners are placed with employers. Mentors log weekly timesheets and visits directly in the system. Everything is signed off digitally — no paper needed.

5

Reports & Compliance

The system tracks compliance deadlines automatically. Progress reports are generated with a single click and submitted through the platform.

6

Outcomes & Certification

Finance clearance is confirmed, records are finalised and the full learner journey is archived for SETA and audit purposes with a complete digital trail.

Finance, Communications & Administration

The back-office tools that keep everything running.

Forek Online goes beyond academics. It integrates the administrative and financial workflows that training providers deal with every day — all in the same system.

Feature Area	What It Does For You
Finance Management	Track learner finance records, issue financial clearance, manage payslip requests and maintain full audit trails for every financial interaction.
Notifications & Alerts	Send in-app notifications, emails and SMS messages to learners, staff and mentors — automatically triggered by system events or manually by admin.
Document Management	Store, retrieve and share all documents securely in the cloud. Supports learner documents, evidence, contracts, assessments and more.
User & Role Management	Granular role-based access control ensures every user — student, mentor, assessor or admin — sees only what they need to see.
Background Automation	Automated tasks run silently: syncing student data from external systems, sending scheduled reminders and processing bulk imports without interruption.
Audit Trail & Security	Every action is logged with a timestamp and user identity. Full audit history ensures accountability and supports SETA compliance requirements.

One login. Every tool your team needs.

Why Choose Forek Online?

The smarter way to run a training provider.

Save Time

Automate repetitive tasks — applications, reminders, imports and reporting — so your team can focus on what matters most: the learners.

Reduce Errors

Replace paper registers, spreadsheets and email chains with a single source of truth. No more lost documents or missed deadlines.

Stay Compliant

Built with SETA compliance in mind. Track report deadlines, manage grace periods and generate submission-ready documentation at any time.

Scale With Ease

Whether you have 50 learners or 5 000, Forek Online scales with your institution without requiring additional IT infrastructure.

Work From Anywhere

Fully web-based and cloud-hosted. Your staff, mentors and learners can access the system from any device, anywhere in the world.

All-in-One Value

No need for separate HR, finance, LMS and reporting systems. Forek Online covers every function in a single platform.

"Forek Online puts the whole training operation in one place — from the first application to the final report."

Ready to Transform Your Training Institute?

Join the institutions already using Forek Online to deliver better outcomes for their learners, reduce administrative burden and meet every compliance deadline with confidence.
